### Christmas Greenery

Show your commitment to sustainability and a better quality of life by slipping on a Green Tee (RMB 158). With their funky designs developed by eno and Greenovate, the tees are designed to encourage you to live, wear and share the environmental messages. Plus, all proceeds from the Green Tee project go to GECKO (Greenovate Environmental Challenge for Kids Outreach), a program designed to teach kids in China about the environment. Alternatively, contribute by reducing waste this Christmas with a Reuse bag (RMB 100). Hint: it makes a clever wrapping paper alternative. *Green Tee from eno, 139-23, Changjie Lu. Reuse bag from Nest, Room 201, 2F, Bldg 3, 210 Talkang Lu. Or buy both online at: [www.greenovate.org](http://www.greenovate.org).*
